

What is GI tag and list of GI products

The word GI is an indication of the geographical location which indicates the product associated with a certain area or region. Actually, it has become a trademark of that region and the place becomes famous by the name of that product. It is used for agricultural, natural and manufactured goods having a special quality and established a reputation. There are also products which have two geographical indications, one for the name and another for the logo. Darjeeling tea became the first **GI tagged** product in India, in 2004-05.

What are GI products

The Geographical Indication is the sign used on the products that have the regional origin and which can be depicted from its label.

How many GI in India

So far total of 334 products have been given GI status in India have been registered in India. Karnataka tops with **39** GI products, followed by Maharashtra which has **32** GI products. Tamil Nadu comes third with 26 GI products.
